

## **PRESS STATEMENT/RELEASE**

Perbadanan Putrajaya (PPj) would like to refer to the comment received from Mr. Othman Ahmad of Sabah that PPj should install fans at the arrival hall of the Putrajaya Sentral (ERL Station) because of the discomfort due to the hot weather.

As the ventilation system at the station is designed to be as natural as possible, more open spaces have been provided to ensure that the station is free of hindrances and to allow maximum air flow. PPj will undertake a proper study in terms of cost and benefit analysis to determine if it is feasible as passengers are not limited at only the arrival hall. At present, PPj is concentrating its efforts to provide more kiosks at the terminal to meet the demands from passengers.

PPj can also be contacted directly on our hotline @ 03-88873000.

Thank you.
